

CASEY NAZELROD

Reisterstown, MD | 443-915-0756 | cnazelrod@ufl.edu | [LinkedIn](#) | [GitHub](#)

Computer Engineering student with hands-on experience building AI-powered applications, full-stack web platforms, and competing at the international level in cybersecurity. Seeking to apply agentic AI and software development skills in a real-world engineering environment.

EDUCATION

B.S. Computer Engineering — Cybersecurity Specialization University of Florida Herbert Wertheim College of Engineering	May 2029
--	----------

CYBERSECURITY ACCOMPLISHMENTS

#Cyber Chats Podcast Guest Discussed cybersecurity opportunities for youth interested in the field	2025
Air Force Association CyberPatriot XVI Advanced to National Finals — Placed 5th nationally	2024–2025
RTARF Cyber Warrior Competition — Bangkok, Thailand - Represented U.S. Cyber Command - Favored problems in programming, cryptography, and web exploitation - Placed 3rd out of 77 international teams	2024
Air Force Association CyberPatriot XV Advanced to National Finals — Placed 8th nationally, Maryland State 1st place	2023–2024
Cyber Battle of the Nordic-Baltics — Tartu, Estonia - Favored problems in web exploitation and penetration testing - Placed 6th internationally	2023
Air Force Association CyberPatriot XIV Placed 21st nationally, Maryland State 1st place	2022–2023

PROFESSIONAL CERTIFICATIONS

CompTIA Network+ — Code: YZ5XJ2RN43FE1KWL	September 2021
CompTIA Security+ — Code: HXVE0DKTG EV114S0	September 2023

WORK EXPERIENCE

Software Developer — Finback 670 Maintained a Supabase database and Next.js website for a local law firm	2025
LBCSI Product Developer Developed and ran LBC2, the largest youth cybersecurity competition in the DMV	2024–2025
Software Developer — Finback 670 Developed disaster recovery solutions for web and iOS	2024
Software Beta Tester — Carolina 777 Tested home inspection software	2023
LBCSI Linux Training Lead Created and delivered Linux training content to all LBCSI members	2022–2023

SKILLS

Languages & Frameworks:	SvelteKit, Next.js, Node.js, Python
AI & Data:	Large Language Models (Claude, OpenAI), agentic AI workflows, vector databases, Supabase, Cloudflare Workers
Security:	OS hardening, penetration testing, web exploitation
Tools:	Linux (Arch, Ubuntu), Git, Wrangler
